Tile colours shown of the tile product on this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of all floor tiles there may be small variations in resistance. The slip resistance values provided are accurate at the time of testing and represent the standard production value. Please note, Inadequate cleaning and maintenance will lead to a significant redu the slip resistance of all values. The slip resistance of all floor tiles there may be small variations in the slip resistance of all values. The slip resistance of all floor tiles there may be small variations in the slip resistance of any tiles. The pendulum test results are displayed in line with The Health & Safety Executive guidelines whereby 0 - 24 represents a high slip potential. 25 - 35 signifies a moderate slip par and 36+ represents a low slip potential. All figures are accurate at the time of this data sheets creation (21/03/2021). Johnson Tiles is a division of Norcros Group (Holdings) Limited, Ladyfield House, Station Wilmslow, Cheshire, SK9 IBU. Registed in England ho. 566694. Johnson Tiles. Johnson, Absolute and Material Lab are registered trademarks and together with Kerastar and product names are the trademark Johnson Tiles. Dinnson Tiles. Emitted and licensed to Norcros Group (Holdings) Limited trading as Johnson Tiles. © 2021 Johnson Tiles. All rights reserved.
